

3 REASONS WHY YOU SHOULD WANT AN EVEREST MACHINE AT YOUR BUSINESS

1

ATTRACTS CUSTOMERS

With the addition of a ice and water vending machine, you will see an increase of traffic to your business from customers coming to purchase ice and water.

2

ZERO HEADACHES

Installation, all costs, and maintenance of the machine is taken care of by the machine owner.

3

GUARANTEED INCOME

Besides an increase in revenue from additional customers, the Everest machine owner will pay you a monthly fee!

FREQUENTLY ASKED QUESTIONS

1. Who handles the site improvement costs?

In a typical land lease arrangement, site improvement (creating a pad for the machine, arranging utility hookups, etc) costs are paid for by the machine owner.

2. How am I paid?

Typically the property owner and the machine owner enter into a simple lease. That is where the machine owner pays a monthly rental to allow placement of the machine on property. This rental typically goes for \$200 to \$300 a month.

3. Who handles the utilities?

The machine owner will reimburse you for all utility costs. Everest typically costs \$100 a month in combined use.

4. How long does install take?

Everest machines are plug and play. They can be installed in less than two hours with minimal disruption to surrounding businesses.

5. How much additional traffic will there be to my property?

The presence of an Everest machine can attract thousands of potential customers that you don't need to advertise or market to. Ice Vending is a rapidly growing business that will help bring you additional revenue with no additional cost to you.

6. What's the next step?

The Everest machine owner will have a licensed plumber and electrician visit the property to determine utility hook up and machine location.
